**Request for Confidentiality**

**Company name:** Hewlett Packard Co  
**FCC ID:** RTP-MRLBB1003  
**FCC Part 15 Certification**

Gentlemen,

In accordance with FCC Rules Section(s) listed: Pursuant to 47 CFR 0.457(d) and 0.459 Hewlett Packard Co hereby requests confidentiality of the following documents for the subject application:

| Exhibit Type            | File Name                            | Description             |
|-------------------------|--------------------------------------|-------------------------|
| Operational Description | mrlbb-1003 functionaldescription.pdf | Functional Description  |
| Schematics              | Mrlbb-1003 schematics.pdf            | Radio Schematics        |
| Block Diagram           | Mrlbb-1003 block diagram.pdf         | Radio Block diagram     |
| BOM                     | Mrlbb-1003 bill of materials.pdf     | Radio Bill of Materials |

Reason why the material should be withheld from public inspection:

Since the design is a basis from which future technological products will evolve, Hewlett Packard Co considers that this information would be of benefit to its competitors and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

State why the information is a "trade secret;"

These documents contain detailed system and equipment description and related information about the product which Hewlett Packard Co considers to be proprietary, confidential and a custom design and otherwise would not release to the general public.

State whether the information is publicly available anywhere else:

The information in the above file is not publicly available. It is not general knowledge that our MRLBB-1003 radio uses an Atheros chipset, whose design is under a strict NDA agreement.

Sincerely,

John Czyzewicz  
Senior Regulatory Engineer
