Subject: HAICOM Electronics Corp., FCC ID: RU8HI-407BT, Assessment NO.: AN06T5953, Notice#1

Question #1: The block diagram and user manual indicate the EUT is equipped with MINI 1394 connector, which can be connected to PC. Please confirm if the EUT can be powered by PC. If it is the case, please perform power line conducted emission test when the device is powered by PC.

Question #2: Since EUT can be connected to a PC, this device is qualified to be PC peripheral. If the digital portion is authorized through DoC, please add FCC DoC logo on the FCC ID label.

Best Regards,  
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
