RE: Qcom

FCC ID: RUJ-Q802MKG

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Please review Page 3, Section 4 of the Manual. It appears the country code can be changed through software. This is not permitted under FCC rules. End users and in most cases OEM integrators are not permitted to change country code settings. The installation software appears to allow anyone to access the country settings. Please review and advise.
- 2.) Please confirm that Limited Modular Approval is expected as opposed to a full modular approval. If changes to full modular approval then a corrected modular approval request letter must be uploaded.

William H. Graff
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
