DESCRIPTION

Description

INSTALLATION

Installation (See drawing)

1 - Insert the 4 x AA battery in the compartment .

2 - Connect the RJ11 to RJ11 cable between the Amplacall and phone

3 - Connect one end of the telephone line cord to the unit and the other end to a wall socket.

4 - Connect the adaptor (option).

For serving or replacement, you purchase a suitable shaker Model no. CLA2 through service centre or retailer shop

INSTALLATION

Electrical connection : The apparatus is designed to operate from a 230V 50Hz supply only. (Classified as «hazardous voltage» according to EN60950 standard). The apparatus does not incorporate an integral power on/off switch. To disconnect the power, either switch off supply at the mains power socket or unplug the AC adaptor. When installing the apparatus, ensure that the mains power socket is readily accessible.

Telephone connection : Voltages present on the telecommunication network are classified TNV-3 (Telecommunication Network Voltage) according to the EN60950 standard.

Important Safety Instructions

When using your device equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury to persons, including the following:

1. Do not use this product near water, for example, near a bath tub, wash bowl, kitchen sink or laundry tub, in a wet basement or near a swimming pool.
2. Avoid using a device (other than a cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
3. Do not use the device to report a gas leak in the vicinity of the leak.
4. Use only the power cord and batteries indicated in this manual. Do not dispose of batteries in a fire. They may explode. Check with local codes for possible special disposal instructions.

SAVE THESE INSTRUCTIONS!

To use the device a telephone ringer amplifier, while a new call is coming, the indoor unit will be sound alarm and flash(Depend on the Alarm mode setting)

INSTALLATION

Trouble shooting

Symptom	Solution
No incoming call, it rings automatically or rings continuously; the shaker vibrates automatically or continuously; the camera LED flashes automatically.	<ol style="list-style-type: none">1) Check if the batteries contact well.2) Check if the power adaptor connects normally.3) Turn off the power switch for 10 minutes and then turn it on.
When the power supply works normally, the red low battery LED flashes automatically.	<ol style="list-style-type: none">1) Check if it is low battery.2) Turn off the power switch for 10 minutes and then turn it on.
When it is connected to the power adaptor or has been installed 4 batteries, however, when there is an incoming call, no rings.	<ol style="list-style-type: none">1) Check if it is connected to the power adaptor correctly;2) Check if the batteries are installed right.3) Check if the volume switch turns on.4) Check if it is connected to the line cord correctly.

INSTALLATION

When it is connected to the power adaptor or it has been installed 4 batteries, bell rings normally, or camera LED blinks normally, when there is an incoming call, the shaker doesn't vibrate.	<ol style="list-style-type: none"> 1) Check if it is connected to the shaker correctly. 2) Check if the shaker socket has been damaged. 3) Check if the alarm mode selection switch position is correct.
If the AmpliCALL20 does not ring when the doorbell is pressed	<ol style="list-style-type: none"> 1) Check that the red light on the doorbell flashes when it is pressed. If it does not, change the battery. 2) Register the doorbell to the AmpliCALL20 again 3) Make sure the alarm configuration button is not on "0"

REGULATORY COMPLIANCE

- This equipment complies with Part 68 of the FCC rules and the requirements adopted by the ACTA. On the bottom of this equipment is a label that contains, among other information, a product identifier in the format US:AAAEQ##TXXXX. If requested, this number must be provided to the telephone company.
- All applicable certification jacks Universal Service Order Codes (USOC) for the equipment is provided (i.e. RJ11C) in the package with each piece of approved terminal equipment.
- A plug and jack used to connect this equipment to the premises wiring and telephone network must comply with the applicable FCC Part 68 rules and requirement adopted by the ACTA. A compliant telephone cord and modular plug is provided with this product. It is designed to be connected to a compatible modular jack that is also compliant. See installation instructions for details.
- The REN is useful to determine the quantity of devices you may connect to your telephone line and still have all of those devices ring when your telephone number is called. In most, but not all areas, the sum of the REN's of all devices connected to one line should not exceed five (5.0). To be certain of the number of devices you may connect to your line, as determined by the REN, you should contact your local telephone company to determine the maximum REN for your calling area.
- If this equipment causes harm to the telephone network, the telephone company will notify you in advance that temporary discontinuance of service may be required. But if advance notice isn't practical, the telephone

REGULATORY COMPLIANCE

company will notify the customer as soon as possible. Also, you will be advised of your rights to file a complaint with the FCC if you believe it is necessary.

- The telephone company may make changes in its facilities, equipment, operation or procedures that could affect the operation of the equipment. If this happens the telephone company will provide advance notice in order for you to make necessary modifications to maintain uninterrupted service.

- This equipment may not be used on coin service provided by the telephone company. Connection to party lines is subject to state tariffs. This equipment is hearing aid compatible.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

REGULATORY COMPLIANCE

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications."

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio TV technician for help.

- If trouble is experienced with this equipment, for repair or warranty information, please contact our customer service staff at: 1-888-864-2446

If the equipment is causing harm to the telephone network, the telephone company may request that you disconnect the equipment until the problem is resolved.

- Please follow instructions for repairing if any; otherwise do not alter or repair any part of device except as specified.

GARANTIE

Opening the equipment or any attempt to perform repairs will void the warranty. For service or repairs, call 1-888-864-2446.

From the moment your Geemarc product is purchased, Geemarc guarantee it for the period of one year. During this time, all repairs or replacements (at our option) are free of charge. Should you experience a problem then contact our helpline or visit our website at www.geemarc.com. The guarantee does not cover accidents, negligence or breakages to any parts.
