

FCC ID: RUNMCIMX31PDK

Test

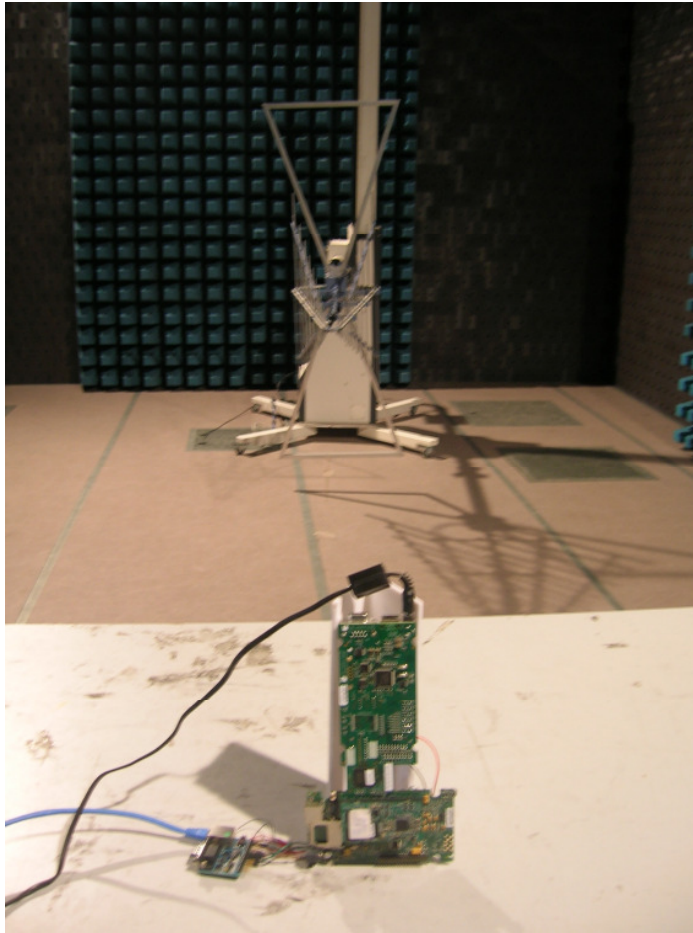

Setup

1. Maximum peak output power

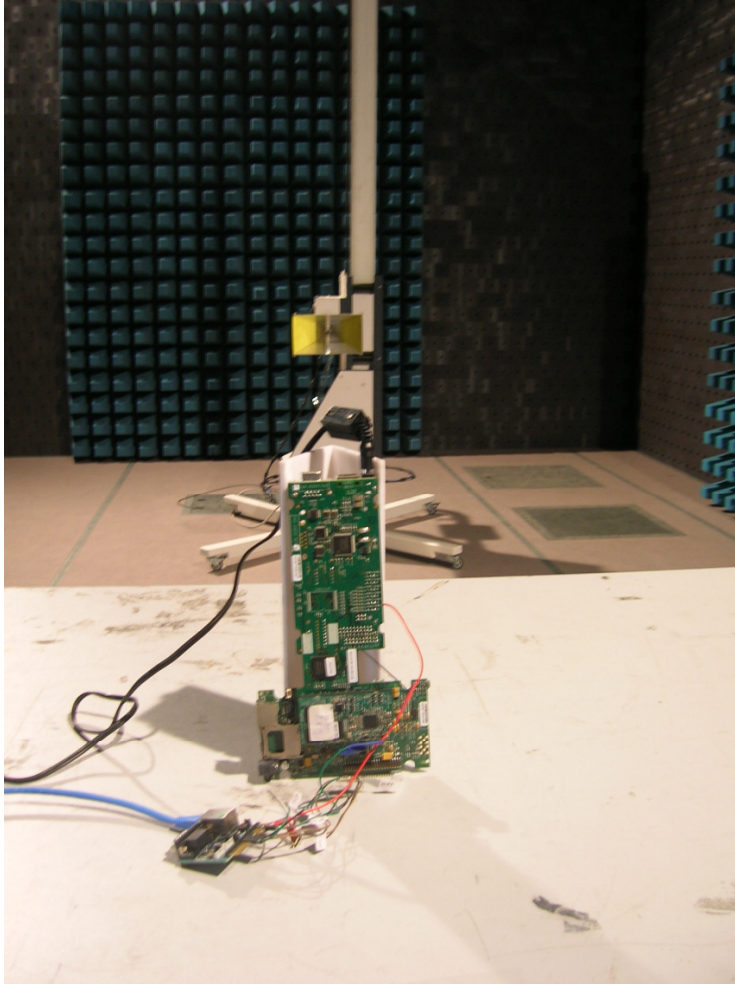

2. Spurious Emission & Restrict Band radiated Emission

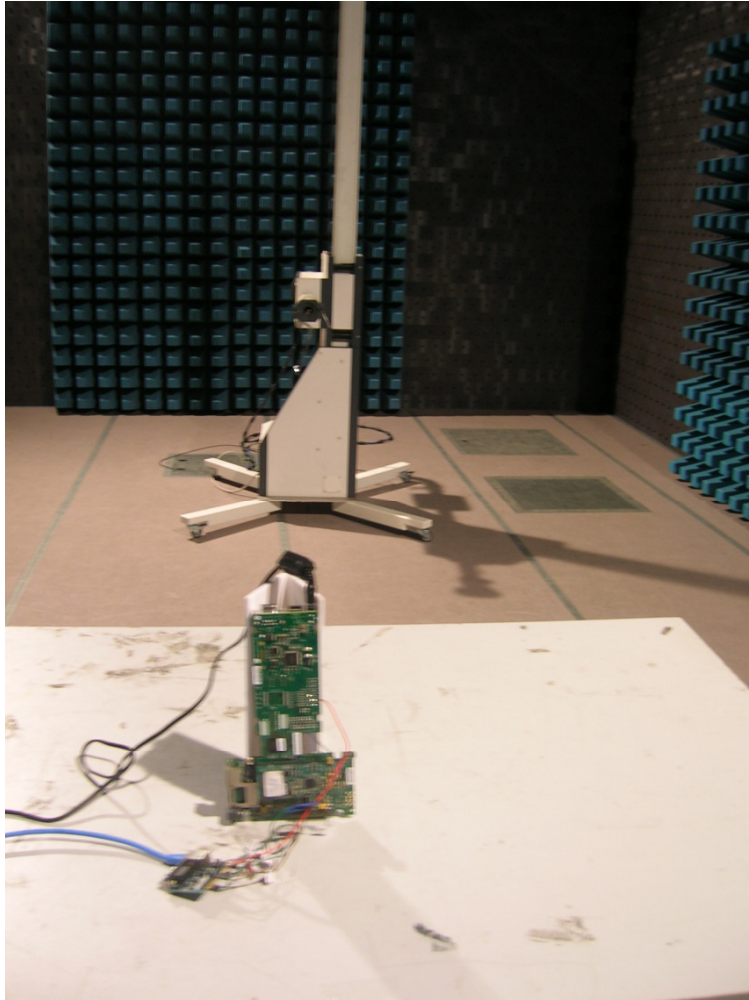

30MHz-1000MHz

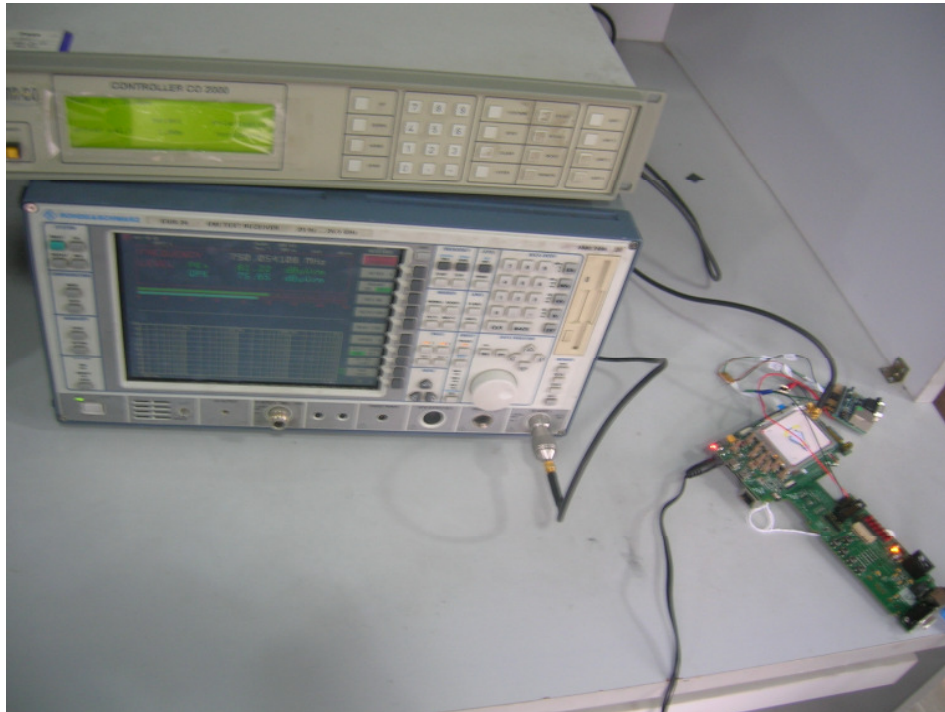

1GHz-18GHz

18GHz-25GHz

- 3. Minimum 6dB Bandwidth & Power spectrum density & Emission outside the frequency band & Channel number of hopping system & Average time of occupancy in any channel & Occupied bandwidth & Hopping channel separation & Spurious emission for receiver**

4. Conducted Emission
