

RE FCC ID: RUVBIB2

To the certification reviewer:

We are hereby applying for Single modular approval of the above-referenced FCC ID, based on compliance with all of the criteria as detailed below.

Part 15 Unlicensed Single Modular Transmitter Approval Justification per 15.212

Requirement per 15.212	reference
(i) The radio elements of the modular transmitter must have their own RF shielding.	YES, see internal photographs
(ii) The modular transmitter must have buffered modulation/data inputs (if such inputs are provided.	YES
(iii) The modular transmitter must have its own power supply regulation.	YES
(iv) The modular transmitter must comply with the antenna and transmission system requirements of §§ 15.203, 15.204(b) and 15.204(c).	YES, the RF module will be integrated into host devices subject to professional installation
(v) The modular transmitter must be tested in a stand-alone configuration, i.e., the module must not be inside another device during testing for compliance with Part 15 parameters.	YES, see test setup photographs
(vi) The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number. If the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	YES, see ID label
(vii) The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	YES
(viii) The modular transmitter must comply with any applicable RF exposure requirements in its final configuration.	N/A, this RF module is subject to §15.225 and therefore exempted

Sincerely,

John McManus

Manufacturing/Regulatory Leader
