For Your Safety

For your safety, please refer to the guideline prior to using the phone. Failure to comply with the guideline may cause malfunctions or hazardous to user.

Road Safety Comes First

Please be careful not to use the phone while driving. In case you need to use the phone, please pull over your vehicle first. In some countries, it is illegal to use a wireless phone while driving. Also, it is recommended to avoid using a mobile phone while refueling at a gas station

Switch off in Aircraft

Mobile phones may cause interference to the aircrafts. Please make sure the phone is switched off while in the airplanes.

Respect Special Regulations

Please follow special regulations in any areas where it is suggested. It is recommended to switch off your phone whenever it is illegal to use, or when it may cause interferences, such as hospitals.

Interference

All mobile phones may be subject to radio interference, which may affect the performance during calling and receiving.

Qualified Service

It is highly recommended to have a repair service by qualified service personnel. Use only the approved accessories and batteries.

Use Properly

Use only in the normal position (hold to the ear). Avoid unnecessary contact with the antenna when

the phone is switched on.

Emergency Calls

When making an emergency calls, please ensure that the phone is switched on and is in service. Enter the emergency number (Official Emergency Number or another official emergency number) and press the [Send Key]. Inform your current location. Do not end the call until given permission to do so. You may end the call by pressing the [End Key].

Display Layout

The idle screen display includes three areas.

Menu Navigation

Selecting Functions and Options

Your phone offers a set of functions that allow you to customize your phone. These functions are arranged in menus and sub-menus, accessible with the two soft keys. Each menu and sub-menu allows you to view and alter the settings of a particular function.

Using Soft Keys

The roles of the **soft keys** vary according to the current context; the label on the bottom line of the display just above each key indicates its current role.

In an Idle screen, by pressing the left soft key (labeled as “Menu”), you can access to menus; by pressing the right soft key (labeled as “Name”), you can view the phonebook list.

Menu Navigation

■ **Up & down navigation key:** you may navigate menus up and down.

- **Left navigation key:** You may go to upper depth menu from the current depth.
- **Right navigation key:** You may go to sub depth menu from the current depth.
- **Left soft key:** accesses to the sub menu by selecting “Ok” or accesses to options.
- **Right soft key:** you may go back to the previous screen.

Backlight

The display is illuminated by a backlight. When you press any key, the backlight lights up. It dims by two levels of illumination, if no key is pressed within a given period, depending on the **LCD Backlight** option in the **Sound & Light** menu.(see 4.Settings/1.Phone Setup/1.Sound & Light)

To specify the length of time for which the backlight is active, set the **LCD Backlight** option.

Getting Started

Your First Call

Please refer to the following diagram that describes the main steps to make a first call.

Installing the SIM card

When you subscribe to a cellular network, you will need a plug-in SIM card loaded with your subscription details (PIN, and optional services available).

1. If necessary, switch off the phone by holding down the End/Power key until the Power off message appears.
2. Remove the battery by following the steps below:
 - ① Pull up and hold the locking catch above the battery on the back of the phone.
 - ② Lift the battery, as shown below.

3. Put the SIM card into the phone. Ensure that the SIM card is inserted properly.
