

Extreme ATV Instruction Manual

Battery Caution:

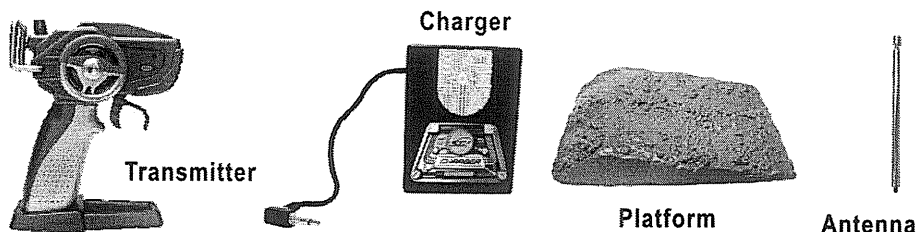

1. Non-rechargeable batteries are not to be recharged.
2. Rechargeable batteries are to be removed from the toy before being charged.
3. Rechargeable batteries are only to be charged under adult supervision.
4. Different types of batteries or new and used batteries are not to be mixed.
5. Only batteries of the same or equivalent type as recommended are to be used.
6. Batteries are to be inserted with the correct polarity.
7. Remove batteries from the product before extended storage.
8. The supply terminals are not to be short-circuited.
9. Batteries must be replaced by an adult.
10. We recommend to use alkaline batteries in the product to obtain better performance.
11. There are many brands of batteries existing on the market, if you do not get a proper connection, remove and insert again or try with another brand.
12. Exhausted batteries should be removed from the toys and disposed in special container.
13. Check that the contact surfaces are clean and bright before installing batteries.

What's included in ATV Series

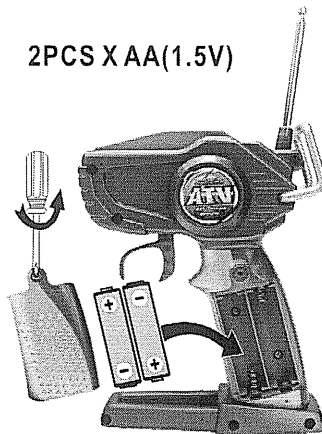

Content

Transmitter Index

To Charge The Vehicle

1. Plug the Vehicle into charger via the charging cord as indicated.
2. Press the charging button and make sure the LED indicator Lights up red, indicating it is charging.

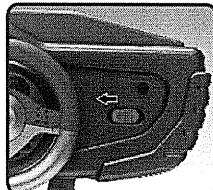

Note:

1. Charging time is approximately 3 minutes.
2. Playing time is approximately 3 minutes.
3. The charging progress of the other 5 items is the same to this one.

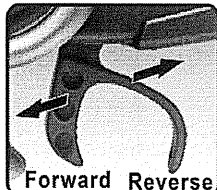

Operation

Red LED Indicator /ON-OFF Switch

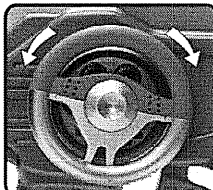

Turn the power switch of transmitter to ON position and operation indicator will light up.

Trigger Switch

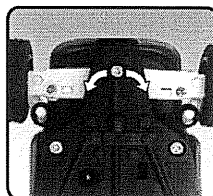

pull and push the trigger to operate the vehicle moving forward or reverse.

Turn Left / Turn Right / Steering Wheel

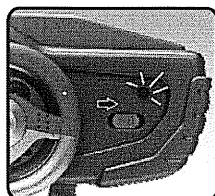

Turn the steering wheel to operate the vehicle's direction when it goes.

Steering Alignment Lever of swift / storm Buggy

If you find the vehicle does not run in straight, you can adjust the steering alignment lever on the bottom of the vehicle.

ON-OFF Switch

Turn the power switch of transmitter to OFF position after operation.

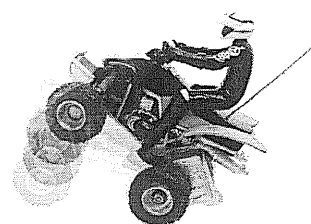

Note: Remove all the batteries from transmitter after playing.

Remarks

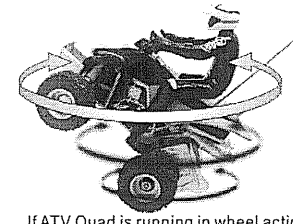

For Swift Buggy and Storm Buggy, need to adjust Trigger and Steering Wheel at the same time to make the turning action.

For the other items, you can operate Steering Wheel separately to make the turning action.

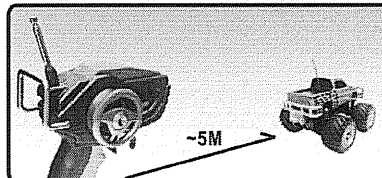

Stunt Action for ATV Quad

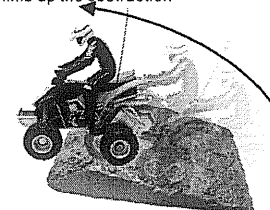

Push the trigger and pull it immediately to make the wheelie action.

If ATV Quad is running in wheel action, turn the steering wheel to make wheelie-spinning action.

Climb up the obstruction

Remarks:
Operation range is at least 5 meters. (Without interference)
1. Please extend the antenna of transmitter for better performance.
2. Please uncurl the antenna of vehicle for better performance.

WARNING:
-Avoid water damage to transmitter and vehicle. If they get wet, stop operating immediately and wait until they completely dry.
-Don't dispose batteries in fire that may cause explosion.
If liquid leaking from the batteries stick to your skin or clothes, wash off immediately.
If liquid get into your eyes, wash your eyes with distilled water and consult a physician immediately.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ☐ Reorient or relocate the receiving antenna.
- ☐ Increase the separation between the equipment and receiver.
- ☐ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ☐ Consult the dealer or an experienced radio/TV technician for help.

CAUTION:

- Packing has to be kept since it contains important information.
- Actual product may vary from images shown on package.

WARNING:

CHOKING HAZARD - Small parts.

Not for children under 3 years.
