Request for Class II Permissive Change

FCC ID: RWB-0005922
IC: 23016-0005922

RE: Request for Class II Permissive Change

To Whom It May Concern:

This application submittal provides documentation in support of a Class II permissive change to address minor changes to non-transmitter related circuits in the device.

This equipment has been granted under FCC ID: RWB-0005922 and IC: 23016-0005922. The equipment remains electrically identical except for the following changes:

1. the addition of the HLC, C54.
2. Added footprints for future features / requirements to the new PCB, such as Q1, but these footprints are not populated and are bypassed with a 0 Ohm jumper.

Schematics and internal photos have been provided for comparison

Should you require any further information, please feel free to contact us.

Sincerely,

Nic Johnson, NCEELabs (authorized agent)
