

**Attestation**

Date: 2014 DECEMBER 15

Subject: Attestation for: FCC ID: RWBMT9103CBU, IC:115A-MT9103CBU

I would like to hereby attest that the WESROC RMS 3G Cellular Base Unit, model MT-9100CBU does not contain any provisions for connection to a network via Ethernet or telecom ports. The plastic enclosure provided for testing included holes marked for these purpose, but the device tested as intended to be certified did not have the functionality.

Note: The "Line" and "Phone" ports as shown above WILL NOT be present on the final enclosure design.

Sincerely,

By:

(Signature/Title<sup>1</sup>)

Nic Johnson, EMC Electrical  
Test Engineering Manager, NCEE Labs
