Subject: Requesting Class II permissive change for FCC ID: RWO-RZ040379.
To Whom It May Concern:

The purpose of this letter is to request a Class II Permissive change for
FCC ID: RWO-RZ040379, granted on 05/31/2022.
The major change field under this application is:

There is no other hardware or electrical modification made to the applying transmitter
itself except below:

1. Add a white appearance.
2. Added a crystal oscillator.

The crystal oscillator added by the customer is the same as before, and the position of the
crystal oscillator has not changed. However, the original crystal oscillator manufacturer
did not supply enough materials, and now a new manufacturer with the same
specifications of crystal oscillators has been added.

3. Changed the manufacturer information. (New : RAZER (ASIA-PACIFIC) PTE.
LTD.)
