**Subject: Hoping Set Limitations**

**FCC ID RWT-ER84**

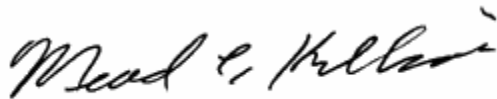

**To Whom It May Concern:**

**We certify that hopping set for the Companion Mic product:**

**Companion Mic - CM4 (FCC ID RWT-ER84)**

**is restricted to those channels with a center frequency between 2404 and 2480. This limitation is to provide adequate frequency separation from the band edge, for compliance with the relevant out-of-band limits.**

Sincerely,

**President, Etymotic Research**
