

## Request for Modular Transmitter Module Approval

Module Characteristics declaration:

Item No.	Yes /No	Requirements	Declaration of the final design
1	Yes	Have its own RF shielding	This module has been shielded.
2	Yes	Have buffered modulation/data inputs (if such inputs are provided),	The module has buffered data input, it is integrated in chip <b>RTL8188ETV</b> .
3	Yes	Have it own power supply regulation	The module has buffered data input, it is integrated in chip <b>RTL8188ETV</b> .
4	Yes	Meet the antenna requirements of Section 15.203	1 RF connectors for 1 external antenna. The module will be sold together with the antenna shown in the filing.
5	Yes	Be tested in a stand-alone configuration, i.e., the antenna, AC or DC power and data input/output lines must be connected to the module but, the module must not be inside another case during testing	The module was tested in a stand-alone configuration via a test kit. Please see section photographs of test configuration in the test report.
6	Yes	Be labeled with its own FCC ID number, <b>and</b> if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	The EUT has a label showing the FCC ID:RX3-WFUR7 of this module. Module's user guide has instructions to the OEM of the end device containing the EUT on how to label the end product with module FCC ID: RX3-WFUR7.
7	Yes	The limited modular transmitter must comply with all specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	The EUT is compliant with all applicable FCC rules. Details instructions for maintaining compliance are given in the module user guide.
8	Yes	Address compliance with the Commission's RF exposure limits in Sections 1.1310 and 2.1093. In addition, spread spectrum transmitters operating under Section 15.247 are required to address RF exposure compliance in accordance with Section 15.247(b)(4).	The EUT is compliant with RF exposure requirement. RF exposure is addressed in the RF exposure exhibition.
