With the new Acteck iFm transmitter, you will be able to hear all of your iPod's playlist songs without the need of special adapters. Just plug in your transmitter on your vehicle's lighter and you'll be ready to dive into the world of digital music.

It has an LCD display, input button to select channels and 3.5mm audio Jack-in.

IMPORTANT NOTICE

Federal Communication Commission Interference Statement:
This piece of equipment has been approved and is within the limits of the B digital class, conforming to article 15 of the FCC rules.
These limits were designed to protect against any harmful interference on home installations.

This equipment can generate, use or emit radio frequencies, and if not installed in accordance to instructions it can cause harmful interference to radio communications. Nevertheless, there is no

warranty that interference will not occur on a particular installation.

Place receptor antenna again.
Increase distance between system and receiver.
Connect system to a different energy circuit.
Ask for an expert's assistance.

This transmitter should not be placed near another antenna or transmitter.

This device conforms to section 15 of the FCC rules. This compels two conditions:

- (1) It is highly probable that this piece of equipment will not cause undesired interferences.
- (2) It can receive audio interferences, even of undesired frequencies.

Declaration of radiation exposition of the FCC:

This piece of equipment is based on the radiation exposition limits of the FCC for uncontrolled environments. To maintain good results, please avoid direct contact with antenna. All users should follow the specific use instructions.

This transmitter should not be placed near another antenna or transmitter.

FCC warning: All unapproved modifications can void users warranty.

SAFETY NOTE

1. Your product complies with FCC and Rules
2. This product does not include parts that can be given maintenance by user.
3. Adjustment procedures or distinct use other than what is stated on the User's manual can cause dangerous results.

WARNINGS

All changes or modifications not approved by the system's distributor can void warranty.
