**Re : RESPONSE TO PHOENIX TESTLAB'S POST-MARKET SURVEILLANCE  
REQUEST**

Dear Dr. Alan Lane,

I am writing this letter to reply your notification dated December 6, 2013 in re the above-referenced subject ("Notification"). Since the RYK-WPEA-121N1 product at issue ("Product") manufactured by SparkLAN Communications, Inc. ("SparkLAN") was never sold and will not sell to any customers, the Product was certainly not marketed and will not be marketed in the USA or worldwide else.

Given the foregoing statement, please kindly note SparkLAN has no Product from mass production line in possession and determines to cancel and terminate the FCC ID of this Product (if any). We look forward to receiving your advice in connection with how SparkLAN can proceed with said cancellation and termination.

We also take the opportunity to thank you for your Notification and understanding.

Yours Sincerely,

SparkLAN Communications, Inc.

Celia Hsu  
Executive Vice President
