

TAIYO YUDEN

Request for Class II Permissive Change

October 18, 2019

Federal Communication Commission
Equipment Authorization Division
Application Processing Branch
7435 Oakland Mills Road
Columbia, Maryland 21046

FCC ID : RYYEYSKJN
Applicant : TAIYO YUDEN CO., LTD.

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: RYYEYSKJN, originally granted on 04/19/2019.

We changed the upper limit value of specification in order to reduce the separation distance of 10mm, which is a condition of Grant. This was achieved by changing the check criteria in the manufacturing process without changing the power setting. Although no change in hardware, software and the power setting have made from the original model, we performed the Maximum Peak Output Power test as a spot check with this change, and confirmed that this product still meets the minimum requirements of the applicable rules of FCC.

Please refer to attached "Theory of Operation-Interface Specification" for details of these modifications.

Meanwhile we submit the following documents related to this change. There is no change before and after change except for these documents.

<input type="checkbox"/>	Test Report
<input checked="" type="checkbox"/>	RF Exposure
<input type="checkbox"/>	External Photo
<input type="checkbox"/>	Internal Photo
<input checked="" type="checkbox"/>	User Manual
<input type="checkbox"/>	Label Drawing/ Location
<input type="checkbox"/>	Block Diagram
<input checked="" type="checkbox"/>	Specification
<input type="checkbox"/>	Schematic Diagram
<input type="checkbox"/>	Parts List

Thank you for your attention to this matter.

Sincerely,

Hideki Kato
Deputy General Manager,
