

Transmitter Specification

Frequency: 2405-2480MHz

Modulation frequency coding: 876KHz

Carrier frequency modulation model: GFSK

Power: <10mW

Modulation S/N: <40dB

Length of airframe: 192mm

Working current: < 150mA

Antenna length: 175mm

Working voltage: 7.8-12V

RF output power: <10mW

Information of Antenna

Gain: 0dB +/-1dB

DC Resistance: >0.3Ohm <1 Ohm

Resistance: 50Ohm
