

## Tune-Up Procedure (Duo-i6525)

Figure 1 – Duo-i6525 Front & Side Views

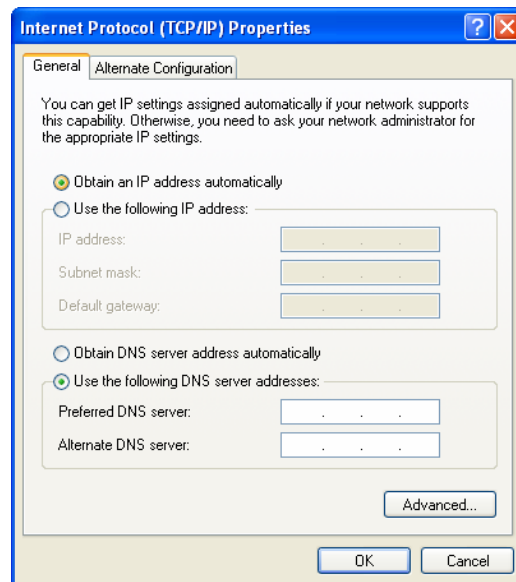

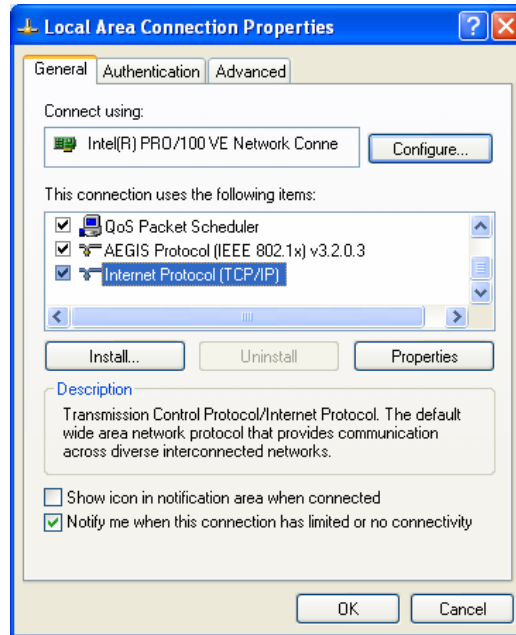

Figure 2 – Duo-i6525 Back & Bottom Views

- i) Connect the LAN cable between laptop's Ethernet port and repeater's Ethernet port.

**Note: Under Local Area Connection in Network Settings, make sure to select **Obtain an IP address automatically** under Internet Protocol (TCP/IP) properties.**

- ii) Launch MS Internet Explorer (Version 6.0 or higher)

Note: ADRF's Web GUI is not compatible with any other web browsers (e.g. Netscape, FireFox, Mozilla, etc.).

iii) Please type the following IP address on the address bar of MS Internet Explorer:

<http://192.168.63.1/home.asp>

iv) The following login screen will appear:

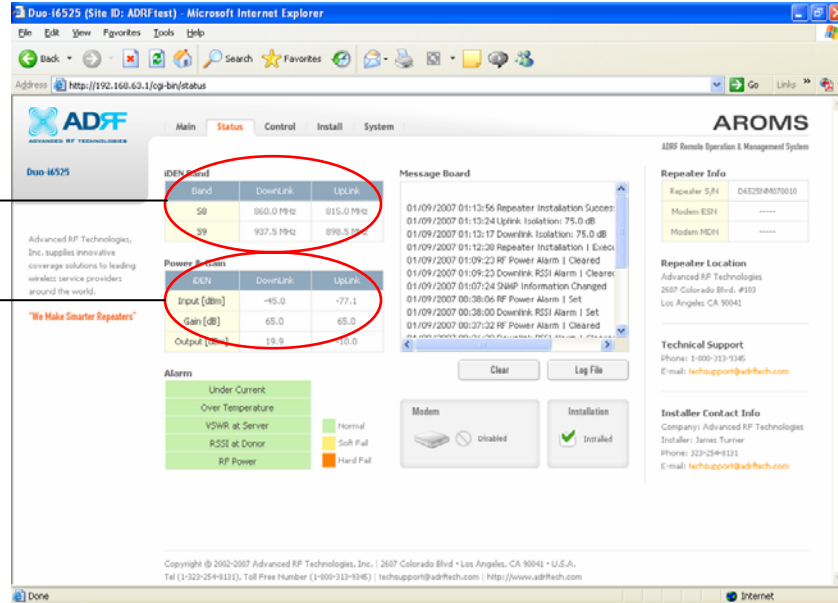

If you are not the Super-User, please type in your assigned username & password which you should have received from the Super-User.

The default username and password for the General User is **adr** & **adr**, respectively.

If the username & password is typed in incorrectly, the following screen will appear:

v) If you click on **Status tab**, the following window will appear:

In this window, the user can **view** the following:

To **change** any parameters, e.g., iDEN Band, Gain Settings, you have to go to Install or Control Menu.

- iDEN Band: Will display the center frequencies of the 800 and 900 MHz spectrums on the downlink and uplink respectively.

#### iDEN Band

Band	DownLink	UpLink
S8	860.0 MHz	815.0 MHz
S9	937.5 MHz	898.5 MHz

- Power & Gain: Will display the repeater input, gain and output power on the downlink and uplink.

#### Power & Gain

IDEN	DownLink	UpLink
Input [dBm]	-45.0	-77.1
Gain [dB]	65.0	65.0
Output [dBm]	19.9	-10.0

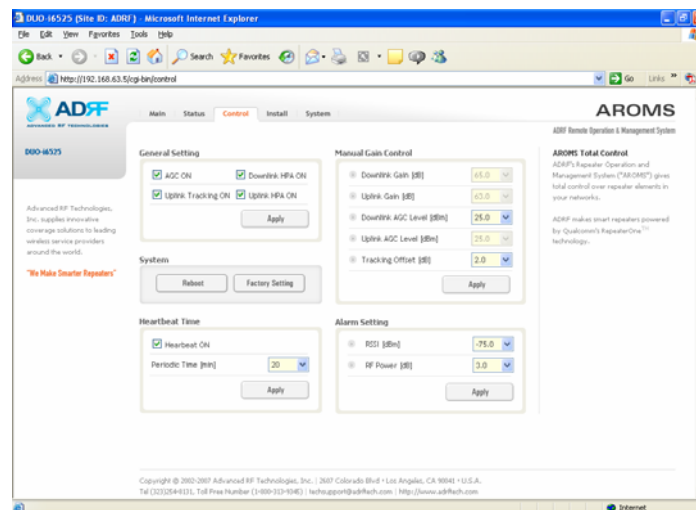

- Alarm: Will display five alarms with three different status conditions (Normal, Soft Fail or Hard Fail).
- Message Board: Will show up to recent 20 log messages (Alarms & Heartbeats).
- Modem: Will display the status of the mode (e.g. Disabled, Not Connected or Connected)
- Installation: Will display repeater's installation status (Not Installed or Installed).
- Repeater Info: Will display repeater's serial number, modem ESN and MDN.
- Repeater Location: Will display the address where the repeater is installed
- Technical Support: Will display ADRF's Technical Support contact information.
- Installer Contact Info: Will display the installer's name, phone and e-mail address.

**Note:** Once successfully logged in, the repeater model name and the site/cascade ID will be displayed on the top of all the windows (except for the Main Window).

Parameters	Range	Step Size
DL/UL Output Power	-10 ~ 28 dBm	0.1 dB
DL Input Power	5 ~ -95 dBm	0.1 dB
Gain	40 ~ 65 dB	0.5 dB

Table 2 – Default Parameter Ranges

vi) If you click on **Control tab**, the following window will appear:

In this window, the user can adjust the following parameters:

#### General Setting

- Automatic Gain Control (Default mode is Off)
- Downlink HPA on/off (Default mode is On)
- Uplink HPA on/off (Default mode is On)
- Uplink Tracking mode on/off (Default mode is Off)

#### Manual Gain Control

- Downlink Gain Control (40 to 65 dB @ 0.5 dB step, default value: 25 dB)
- Uplink Gain Control (40 to 65 dB @ 0.5 dB step, default value: 25 dB)
- Downlink AGC Level (15 to 25 dBm @ 0.5 dB step)
- Uplink AGC Level (15 to 25 dBm @ 0.5 dB step)
- Uplink Tracking Offset (0 to 10 dB @ 0.5 dB step - Default mode is Off)

#### System

- If you click the Reboot button, the following message box will appear:

- If you click the Factory Setting button, the following message box will appear:

#### Heartbeat Time

- Heartbeat on and off (Default mode is Off)
- Heartbeat periodic time (Range: 1 to 59 min @ 1 min step – Default time is 20 min)

#### Alarm Setting

- RSSI Alarm at Donor (-95 ~ -50 dBm @ 0.5 dB step – Default value is -75 dBm)
- RF Power Alarm (2 ~ 10 dB @ 0.5 dB step – Default value is 3 dB)

vii) If you click on **Install tab**, the following window will appear:

The screenshot shows the AROMS web interface in Microsoft Internet Explorer. The 'Install' tab is selected. The interface includes the following sections:

- Band Selection:** Two columns of frequency bands. The left column (SHR 800) includes 16.0 MHz, 17.0 MHz, 17.6 MHz, 7.0 MHz, 6.8 MHz, and 6.6 MHz. The right column (SHR 900) includes 5.0 MHz, 4.8 MHz, and 4.6 MHz.
- Modem:** A checkbox for 'Auto Connection' is checked. There are 'Connect' and 'Disconnect' buttons.
- SNMP:** Fields for 'Site ID' (containing 'ADRF') and 'Manager IP' (containing '100.10.10.100'). There is a 'Set' button.
- Repeater:** An 'Install' button.
- Repeater Location Info:** Fields for 'Company' (Advanced RF Technology), 'Address' (2607 Colorado Blvd), 'City' (Los Angeles), 'State' (CA), and 'ZIP Code' (90041).
- Repeater Installer Info:** Fields for 'Company', 'Name' (James Turner), 'Phone' (1-800-313-9345), and 'E-mail' (techsupport@adrftech.com). There is a 'Set' button.

At the bottom, there is a copyright notice: Copyright © 2002-2007 Advanced RF Technologies, Inc. | 2607 Colorado Blvd • Los Angeles, CA 90041 • U.S.A. Tel (310) 554-6131, Toll Free Number (1-800-313-9345) | techsupport@adrftech.com | http://www.adrftech.com

- Band Selection: Simply click on the desired operating bandwidth.
- Modem: By default, auto-connection box is checked so that the modem will connect automatically once sufficient donor signal is present.
- SNMP: Type in the assigned site/cascade ID and manager IP address. Default Site ID and Manager IP address is ADRF and 100.10.10.100 respectively.
- Repeater: Click Install button to automatically setup the repeater.
- Repeater Location: Will display the physical address where the repeater is installed
- Repeater Installer Info: Will display the installer's name, phone and e-mail Address for technical support.

viii) If you click on **System tab**, the following window will appear:

The screenshot shows the AROMS web interface in Microsoft Internet Explorer. The 'System' tab is selected. The interface includes the following sections:

- Account Management / New account / Administrator:** A table with columns: No, Login Name, Password, Status, and Edit.

No	Login Name	Password	Status	Edit
1	admin	admin	administrator	<a href="#">Delete</a>
2	adf	adf	member	

At the bottom, there is a copyright notice: Copyright © 2002-2007 Advanced RF Technologies, Inc. | 2607 Colorado Blvd • Los Angeles, CA 90041 • U.S.A. Tel (310) 554-6131, Toll Free Number (1-800-313-9345) | techsupport@adrftech.com | http://www.adrftech.com

Note: If you are the Super User, you will see account management section under the System Window. If you are a local user, you will not be able to see the account management portion.

Only the Super-User can add, delete and modify a user. The following window illustrates how a new user can be added by simply clicking on New Account.

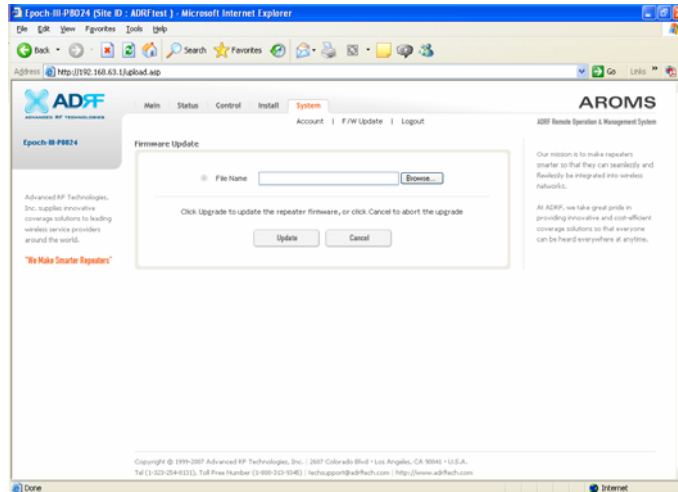

The screenshot shows a web browser window titled "Epoch III PB024 (Site ID: ADRF test) - Microsoft Internet Explorer". The address bar shows "http://192.168.43.1/addruser.asp". The page displays the AROMS (AROM Remote Operator Management System) interface. The main navigation bar includes "Main", "Status", "Control", "Install", and "System". The "System" menu is expanded, showing "Account", "F/W Update", and "Logout". The "Account" menu is further expanded, showing "New account / Administrator". The form for adding a new user is displayed, with fields for "New User Name", "Password", and "Confirm password". Below the fields, there is a text prompt "Please add a new login name and password" and "Apply" and "Cancel" buttons. The footer contains copyright information for Advanced RF Technologies, Inc. (1999-2007) and contact details for Los Angeles, CA 90045, U.S.A.

The following window illustrates how a new administrator can be added by simply clicking on Administrator.

The screenshot shows the same AROMS web interface as the previous one, but the "New Administrator" form is displayed. The form has fields for "New Administrator", "Password", and "Confirm password". Below the fields, there is a text prompt "Please enter new super user name and password" and "Apply" and "Cancel" buttons. The footer contains the same copyright information for Advanced RF Technologies, Inc. (1999-2007) and contact details for Los Angeles, CA 90045, U.S.A.

If you click on Firmware Upgrade, the following window will appear. You can browse through your PC and locate the firmware file. Once it's selected, simply click on Update and it'll upload the latest firmware automatically and close the session. You will need to re-login again.

## **Trouble Shooting**

If you encounter a problem during the installation and an “Installation Incomplete” message comes up, please contact the Technical Support Department at:

E-Mail: [techsupport@adrfttech.com](mailto:techsupport@adrfttech.com)

Phone: 1-800-313-9345 / 323-254-8131
