Frank:

Here is our response to the FCC's questions:

- 1) Attached please find an amended report.
- 2) CISPR detector was used as allowed in 15.231(b)(3)
- 5) The device was tested in 3 orthogonal planes prior to the measurement tests to determine the plane of maximum radiation as described in C63.4

We trust the above answers the questions of the FCC.

Regards,
David Lee, FCC/IC Compliance Manager

and

Celia Allan, Office Manager
