

## Limited Module Approval Request Letter

Subject: Module Approval request letter

Date: 10/11/2013

FCC ID: S4A50-0010-CL-WF

Dear Reviewer,

We, Entone Technologies (HK) Limited, would request Dual-band Wi-Fi approved under module approval authorization. The requirements regulated in 15.212 have been fulfilled and clearly explained below.

1. The requirement of RF shielding: This module will not be offered for sale to, or use by any other company or OEM. As the manufacturer of the module and any host product into which this module will be installed, Entone Technologies (HK) Limited, and XAVI Technologies Corporation retains full control over the final installation of the device into its products, and therefore can assure the compliance of the end product to the tested results.
2. The requirement of buffered inputs: Buffered data inputs stage has been integrated in chip (CLR250).
3. The requirement of power supply regulation: The part number of the power regulator is (EUP3419).
4. The requirements of section 15.203 and 15.204(C): The requirements of antenna connector and spurious emission have been fulfilled. Please reference the exhibition Test Report.
5. The requirement of stand-alone test configuration: Please reference exhibition Test Configuration Photo for the stand-alone test configuration.
6. The requirement of labeling: The instruction on the labeling rule of the end product has been stated in the users manual of this module. Please also see the exhibition Label Sample.
7. The requirement of compliance on specific rule or operating requirements: The required FCC rule has been fulfilled and all the instructions for maintaining compliance has been clearly stated in the Users Manual.
8. The requirement of RF exposure: Please refer exhibition RF Exposure for the compliance of MPE RF exposure rule. This RF Module is approved for the integration into "fixed/mobile" host devices.
