Modular Approval Letter

Date: 2013-02-20

The Device, FCC ID: S5FSDWF-61 is seeking FCC authorization as a modular transmitter. The EUT meets the requirement for modular approval as detailed in FCC Public Notice DA 00-1407. Compliance to each of the requirements is described below:

- 1) The modular transmitter have its own RF shielding. Please refer the product photo.
- 2) The modular transmitter have buffered modulation/data inputs, the chip RT5370 is a highly integrated chip with buffer.
- 3) The modular transmitter have its own power supply regulator, DC 5V input should be converted to 3.3V by the power regulator Circuit.
- 4) The modular transmitter comply with the antenna requirement of section 15.203 and 15.204(c), the model SDWF-61/111H1 have a printed antenna , and the SDWF-61/111H have a PIFA antenna connect the PCB with a IPEX connector.
- 5) The modular transmitter be tested in a stand-alone configuration, the modular be supplied by dc 5V from USB port, and the USB cable longer than 10cm from test the laptop at testing.
- 6) The modular transmitter have a label on the modular`s shielding, labeled with its own FCC ID number: S5FSDWF-61.
- 7) The modular transmitter comply with any specific rule or operating requirements and the provide adequate instruction along with the module to explain any such requirements.
- 8) The modular transmitter comply with RF exposure requirements.

Sincerely,
