RE: FCC ID S5Q-0725  
Short Term Confidentiality Protection

To whom this may concern:

Our company, Leprechan LCC, and our affiliates (**Leprechan**) are seeking an equipment authorization for our product with the FCC ID of S5Q-0725. Some of the information we must submit with our application is incredibly confidential to our business and, in particular, our upcoming product launch plans. It's also information that we do not share with any third party unless we have written assurances that protect the confidentiality of that information. It would be very harmful to our business should this information be made public or available to our competitors before we begin marketing and selling our product.

As permitted under 47 CFR Section 2.803 and 47 CFR Section 2.1204, we're ask for 180 days of confidentiality protection (from the our application date) for the following documents we're submitting with that application: set-up pictures, SAR picture, user manual and the internal + external pictures.

Thank you for your understanding and support of our request. If there are any questions, please contact me to discuss.

Warm regards,

Don Carver  
President  
Leprechan LCC
