

ID label

The ID label is 1.8" × 0.4". It is fixed behind a window in the main product label which is printed on 0.125mm velvet polycarbonate with a 3M 468MP adhesive backing or equivalent.

The small size of the RFID reader and its identification label prevent the compliance statement from being printed on the product. The compliance statement is printed in the User Manual.

ID label location

The ID label is fitted to the rear of the product as shown below:
