

**SHENZHEN YIFANG DIGITAL TECHNOLOGY CO., LTD.**

**Building NO.22,23, Fifth Region, Baiwangxin Industrial Park, Songbai  
Rd., Nanshan, Shenzhen 518108, China**

Date: November 26, 2012

We, SHENZHEN YIFANG DIGITAL TECHNOLOGY CO., LTD., declare that this EUT (FCC ID: S7JNX008HI8G) doesn't have Ad Hoc Mode function on "non-US/Canada frequencies". In addition, the frequency selection feature is disabled by firmware for devices marketed to the US/Canada. For DTS part of this device, only channels 1-11 will used in North America. Country code selection is disabled. EUT just have WIFI.

Note: This EUT supports 2.4GHzWiFi only without other RF function

The output power setting of EUT is set in the factory and followed.

The max level in below, there is no tune up procedure except.

Factory default setting

802.11b: 10.80dBm

802.11g: 8.10dBm

802.11n: 8.00dBm

Should you have any questions or comments regarding this matter,  
please have my best attention.

Sincerely yours,

---
