

BTD-301A Bluetooth Audio Dongle

1. Power supply:3.7 recharger lithium battery
2. U1 bluetooth module
3. U2(LPO) provide 3.3V voltage to Bluetooth module V2,U4
provide 1.8V voltage bluetooth to the module V2.
4. V3 Recharger IC
5. V5 composing drive LEC.
6. The Bluetooth Module composing the 2.4GHz radio receiver
and transmitter.
