

BTD-301A Bluetooth Audio Dongle

1. Power supply:3.7 recharged lithium battery
2. U1 Bluetooth module
3. U2(LPO) provide 3.3V voltage to Bluetooth module
V2,U4 provide 1.8V voltage Bluetooth to the module
V2.
4. V3 Recharges IC
5. V5 composing drive LEC.
6. The Bluetooth Module composing the 2.4GHz radio receiver and transmitter.
