RE: Declaration of Similarity
FCC ID: S7Y-AGS800-001

To Whom It May Concern:

Please be advised that Navtech Radar Ltd sell six models based on the AGS800 hardware. These models are:

AGS800/ AGS800-X
AGS500/ AGS500-X
AGS200/ AGS200-X

All models are electronically identical and all RF measurements and test results are exactly the same. The numbers in the product names relate the instrumented range of the product and the RF transceivers are selected based on their performance and ability to achieve marketed range performance.

The difference between a standard and the -X models is the antenna. The AGS800, 500 & 200 have a 2°x4° Antenna beam shape and the AGS800-X, 500-X & 200-X have a 2°x25° and therefore a lower EIRP measurement.

Thank you for your attention to this matter.

Yours faithfully
Navtech Radar Ltd
