RE: Declaration of Similarity

FCC ID: S7Y-TS350X-001

To Whom It May Concern:

Please be advised that Navtech Radar Ltd sell models based on the TS350-X hardware. These models are the TS350-X and the I200.

The models are electronically identical and all RF measurements and test results are exactly the same. The numbers in the product names relate the instrumented range of the product and are software limited at the factory before shipment based on the order code.

The difference between a standard and the -X models is the antenna. The I200 has a 2°x2° Antenna beam shape and the TS3500-X has a 2°x25° and therefore a lower EIRP measurement.

Thank you for your attention to this matter.

Yours faithfully
Navtech Radar Ltd
