RE: Doberman Security Products

FCC ID: S88-SE0107

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Please provide "Information To User" as required by Part 15.21.

Section 15.21 Information to user.

The users manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. In cases where the manual is provided only in a form other than paper, such as on a computer disk or over the Internet, the information required by this section may be included in the manual in that alternative form, provided the user can reasonably be expected to have the capability to access information in that form.
