RE: PART 15 UNLICENSED MODULAR TRANSMITTER APPROVAL

To Whom It May Concern:

We, **Testo Instruments (Shenzhen) Co., Ltd.**, hereby requests for part 15 unlicensed modular transmitter approval of our device, described as follows:

Brand name: **Testo Instruments (Shenzhen) Co., Ltd.**
Model/Type name: **915.00MHz FSK Module**
FCC ID: **S8K915M00**

In FCC Public Notice DA 00-1407 released June 26,2000 there are eight numbered requirements that our device complies with:

- 1. The modular transmitter does have its own shielding. For details, please refer to EUT photos.**
- 2. Buffered modulation/data inputs are provided on the modular transmitter located at pin 5. For details, please refer to the installation manual.**
- 3. The modular transmitter does have its own power supply regulation located at pin 1 and 2.**
- 4. There is no external antenna connector on the module and its antenna is permanently attached on the module. It is not designed for the end user to change the antenna when it is broken.**
- 5. The modular transmitter was tested in a stand-alone configuration.**
- 6. The modular transmitter will be labeled with its own FCC ID number. If the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed will display a label referring to the enclosed module, such as "Contains FCC ID S8K915M00".**
- 7. The modular transmitter complies with all applicable FCC rule parts. Adequate instructions are given by the manufacturer to show this compliance.**
- 8. The modular transmitter was tested to comply with the FCC part 15.249.**
