Model	NOMAD
FCC ID	S9E-NOMADBT
Agent	
Approval Type	Class II Permissive Change
Equipment Class	DTS Digital Transmission System
Rule Part	15.247 (15C)

### Overview

This application is for a Class II permissive change to Tripod Data Systems, Inc.'s Model Nomad to approve a new version of the radio chip. S9E-NOMADBT has a Single Modular approval and the current version of the radio chip, 2500C is being replaced with Version 2500DB. Version 2500C is obsolete. A C2PC is acceptable for this condition per FCC KDB 178919 D01 v0501 2(c) as long as the conditions therein stated are met. The new chip meets the conditions.

No changes have been made to the antennas nor to software.

A test report was submitted showing compliance of the new version of the radio chip.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

### Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
