RE: FCC ID: S9G7962

Gentlemen:

Ruckus Wireless attests that the **7962**, FCC ID S9G7962 is for indoor use only. It will not permit operations on channels which overlap 5600-5650 MHz band. The device meets all the other requirements specified in Section 15.407 and no configuration controls are provided to change the frequency of operations outside the grant of certification for US operation

Sincerely,

Craig Owens
Director, Hardware Engineering
