RE: Report Exhibit Supersede Request for FCC ID: S9GMM2225

To Whom It May Concern:

We would like to request that the Class II permissive change Test Report exhibit uploaded on 2007-07-13 be superseded with the revised report (file: R0706211a) uploaded 2007-07-19. The reason for this supersede is to include in the report the previously certified models (MM2225, MM22x1) and also to make a correction concerning the antenna information of the mobile patch antenna (which is more accurately described as 9 dBi with 1 dBi cable loss which was previously listed as an 8 dBi antenna).

Please contact us for any further information or clarification. Thank you and have a great day!

Best Regards,

A handwritten signature in black ink, appearing to read "D. Méndez", is positioned above the printed name.
