

Q950 – LTE Access Point**Ruckus Wireless Inc., a CommScope Company****Federal Communications Commission Notices**

This product complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this equipment that have not been approved by Ruckus Wireless may void the user's authority to operate this equipment.

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

This device meets all requirements specified in the FCC Part 96 Rules. This transmitter must not be co-located or operate in conjunction with any other antenna or transmitter.

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance **75 cm** between the radiator & your body.

Safety Notices and National Restrictions

This product is intended to be installed at a restricted access location and is marked with a visible warning  that the surface may be hot

Professionally Installed Products

The product is to be installed according to the installation instructions. The User/Operator does not have access to the device once the device is installed and in use. Provisions for permanent grounding are provided.

1. Installation personnel: This product is designed for a specific application and is to be installed by qualified personnel with knowledge of RF and applicable rules. General users are not to attempt installation or changing settings.
2. Installation location: The product is to be installed at a location where the radiating antenna can be kept at least 20 cm from any nearby persons in normal operation conditions to meet regulatory RF exposure requirement.
3. Installation procedure: Please refer to installation instructions for details.
4. Warning: Please carefully select the installation position and make sure that the final output power does not exceed the limit set forth in US CFR 47 Part 96. Violation of the rule could lead to serious federal penalty.

Products intended to be powered by an external power supply:

Warning –This product is intended to be supplied by a Listed Direct Plug-In Power Unit marked Class 2 or LPS (sub-clause 2.5 of standard EN 60950-1). Available Ruckus power supplies intended for product operation are identified in the product datasheet. The last two digits of the power supply part number represent the country code. For additional applicable power supplies/options, see user instructions and product datasheet.

Medical Statement

Ruckus Wireless Access Points shall only be used in ME systems where the intended EM ENVIRONMENT does NOT rely on the Wireless radio link for BASIC SAFETY or ESSENTIAL PERFORMANCE of the ME SYSTEM.
