

June 26, 2008

To whom it may concern:

This is a request for a Class II Permissive Change to add the UNII 5250-5350 and 5470-5725 MHz bands to our existing Grant, FCC ID:S9GVF7XX1.

There are no hardware changes and the enabling firmware can only be installed by our factory.

Sincerely,

A handwritten signature in black ink, appearing to read "C Owens", written in a cursive style.

Craig Owens
Director, Hardware Engineering
