

Ruckus Product Family VX2X25 Operational Theory

Note that the Product Family VX2X25 contains two product models:

1. VF2825
2. VC2725

The VF2825 is a Wireless Router designed to process Video Traffic. The VC2725 is a Wireless Router designed to process Voice Traffic. Both of these products are certified under the Product Family VX2X25.

The below diagram provides the Operational Theory of the products.

Ruckus VX2X25 (Models VF2825, VC2725) Transmit
