Regarding FCC Country Code Selection guidelines identified in KDB 594280 "Country Code Selection".

"All applications for equipment authorization for transmitters that can have radio parameters, or other technical parameters, reported to the Commission set by software must have an attestation indicating that no third party will have software, or configuration control, to program the device out of compliance of the technical rules under which it has been certified."

We declare that all US models do not have country code selection function and is limited to US channels only. Further, we declare that no third party will have software, or configuration control, to program the device out of compliance of the technical rules under which it has been certified.
