Hampshire,  
PO15 5RL

### Modular Approval Request

FCC ID: S9NWESU1

The following attestation addresses the requirements to support modular approval:

| Modular approval requirement                                                                                                                                                                                                  | Yes (provide brief statement)                                                    | No *                                                                                                                                          |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| (a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly                                |                                                                                  | The STEVAL-WESU1 does not embed any shield for the radio element, because it is a stand-alone solution that could be placed in a plastic box. |
| (b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal                                                                        | The STEVAL-WESU1 has buffer on BLUENRG-MS radio element.                         |                                                                                                                                               |
| (c) The module must contain power supply regulation on the module                                                                                                                                                             | The STEVAL-WESU1 has its own power supply regulation on board.                   |                                                                                                                                               |
| (d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b) | The STEVAL-WESU1 embeds a soldered chip antenna                                  |                                                                                                                                               |
| (e) The module must demonstrate compliance in a stand-alone configuration                                                                                                                                                     | The STEVAL-WESU1 has been tested in stand-alone configuration                    |                                                                                                                                               |
| (f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)                                                             | The FCC ID label will be displayed as silkscreen in the PCB                      |                                                                                                                                               |
| (g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain                                                                              | The STEVAL-WESU1 will have an User Manual containing all the needed instructions |                                                                                                                                               |

|                         |  |  |
|-------------------------|--|--|
| compliance requirements |  |  |
|-------------------------|--|--|

| Modular approval requirement                             | Yes (provide brief statement) | No * |
|----------------------------------------------------------|-------------------------------|------|
| (h) The module must comply with RF exposure requirements | Yes. See test results         |      |

\* Please provide a detailed explanation if the answer is "No."

Yours sincerely,

Name: Paolo Evangelista  
Title: Design and Application Manager

**IMPORTANTE**  
**IMPORTANT**

- Il presente ordine di acquisto viene conferito alle condizioni della STMicroelectronics, disponibili per consultazione all'indirizzo <http://www.st.com/stonline/company/termcond/index.htm>
- This purchase order is subject to the conditions of STMicroelectronics, available for consultation at the following address <http://www.st.com/stonline/company/termcond/index.htm>
- Conferma e corrispondenza da inviare a: STMicroelectronics Srl - 20041 Agrate Brianza - Via C. Olivetti, 2.
- Pls ship confirmations and correspondences to: STMicroelectronics Srl - 20041 Agrate Brianza - Via C. Olivetti, 2.
- Preghiamo riportare sulle Fatture e sulle Bolle di Accompagnamento il nostro numero d'ordine e, se indicato, il nostro codice.
- Pls show purchase order number and code number on your invoice and delivery notes.
- "Pls show net prices on your invoice".

Nell'attesa di una Vostra pronta conferma, Vi porgiamo distinti saluti.  
Looking forward to your kind confirmation we remain, yours truly.
