Attention:     Application Examiner  
                  Reviewing Engineer

Confidentiality Request per 0.459 of FCC Rule  
Application for a combination DTS/U-NII APx Module  
Applicant: Airgo Networks Inc.

FCC ID: SA3-AGN1223AR0100

To whom it may concern,

Request is hereby submitted, on behalf of my client Airgo Networks Inc. to withhold from public review certain portions of the application for equipment certification for the referenced FCC identifier. In particular, the following sections of the application and report are requested to be kept confidential:

Schematics  
Block Diagram  
Operational Description  
OEM Module Installation manual

Note: this request for confidentiality updates the 31 August letter by adding the OEM module installation manual.

Rationale for request for confidentiality:

Airgo has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the confidential portions of this application to competitors would give them competitive advantage in developing similar products. The OEM installation instructions contain block diagram and pin designation information that would normally be eligible for withholding from public view if submitted as part of block diagram, schematic, or operational description.

If you have questions or need further information, please contact the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "T N Cokenias". The signature is fluid and cursive, with a long horizontal stroke at the end.

THOMAS N. COKENIAS  
EMC Consultant/Agent for Airgo Networks Inc.
