Dear Tim,

Pls find my following responses:

- 1. Users manual with RF exposure statments has been updated and uploaded. We will update it again with DoC statement.
- 2. Updated.
- 3. Yes, we measure spurious emission up to 25 GHz for low , middle and high channel. But, the frequency higher than 3 GHz has not any obvious spurious signal.
- 4. Has been deleted and uploaded.

B.R. Daniel
