RE: SkyBitz Incorporated

FCC ID: SAE-000MTXC

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) According to FCC interpretations, Confidentiality Request letters must always quote the legal authority which forms their basis. Please quote the specific FCC Rule sections upon which this Confidentiality Request is based.
- 2.) Philosophically, all FCC ID labels must be visible without using too many heroics. Placing the Label on the bottom of the device appears to make identification inaccessible when installed (glued) according to the installation instructions. Please review.
- 3.) Please provide justification for the requested emission designator see on Form 731. Also, see document provided by Applicant entitled "Skybitz App04Sep23.pdf" section 2.2. where an emission designator of 5K00G1D is specified. Also, your Test Report in section 4.2 provides a measured value which could also be used to describe necessary bandwidth. Please clear this confusion. Please be consistent.
- 4.) Please provide E and I in the final RF amplification circuit as required by Part 2 of the Rules.
- 5.) Always provide a calculation whenever corrections to alternative bandwidths are required. In this case, you correct from 3 to 4 KHz without providing justification for your 1.25dB correction.

William H. Graff
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
