Kaba Holding AG, the parent of Kaba Ilco Inc. completed the acquisition of Computerized Security Systems (CSS) of Troy, Michigan in September of 2006.

With this acquisition SAFLOK's full range of access control solutions complement the Kaba product lines and result in a broader offering to all segments of the lodging and commercial access control markets. SAFLOK and Kaba products service a broad range of hospitality segments on a worldwide basis. In addition they are major suppliers to the vacation rental market, the multi housing market, commercial, military and government facilities.

Using the latest technology, our experienced team of designers and engineers is able to translate those needs into customized applications that will add value to your company.

SAFLOK understands the critical needs of our diverse customer base because we listen and work together to solve their needs. From initial sales to aftermarket support, SAFLOK's experience, stability and depth of resources enable us to provide solutions that will help you achieve greater security, efficiency and flexibility in your daily operations, thus adding to your bottom line.

For nearly 30 years, property managers around the world have relied on SAFLOK to provide security solutions to meet the ever-changing needs of the industry. SAFLOK is your partner for all your electronic

lock and access control solutions.

Their Security... Your Control...
