

# Quick-Start Guide

# ACCESS POINT™

INSTEON-Compatible Access Point (#2443 & 2443P)

Access Points bridge RF-only INSTEON devices with power line-only INSTEON devices and couple the phases of your home.

**Need Help? For assistance call your support person @ 800-762-7846**

## Installing Two Access Points

- Step 1.** Plug the **first** Access Point into a convenient wall outlet.  
For best performance when using a remote control place an Access Point in the same room.
- Step 2.** On the **first** Access Point tap the SET button four times rapidly.  
*The Access Point's LED will turn bright and remain steadily on.*
- Step 3.** Plug the **second** Access Point into another outlet.
- Step 4.** Look at the **second** Access Point's Status LED:
- If it is **bright and steadily on**, go to step 5.
  - If it is **blinking or dim**, repeat step 3, trying another outlet.

**Note:** You may need to try several outlets. If you are unable to locate an outlet please call 866-243-8018 for assistance. If you have tried 5 outlets, go back and move the first Access Point to another outlet.

- Step 5.** Tap and release the SET button on the **first** Access Point.  
*The Status LED on both Access Points will go dim and remain steadily on.*

**Congratulations! You have made your home INSTEON ready.**

### HINTS

- Do not use an outlet controlled by a switch.
- Do not place near large metal objects.

## Troubleshooting Tips

- The Status LED on the Access Point is not turning on at all.  
*Make sure you are not on a switched outlet.*
- Do not plug into a power strip or UPS (uninterruptible power supply).
- Add additional Access Points around the home to eliminate RF dead spots.

## FCC Compliance Statement

This device complies with FCC Rules Part 15. Operation is subject to two conditions:

(1) This device may not cause harmful interference, and

(2) this device must accept any interference that may be received or that may cause undesired operation. The digital circuitry of this device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in residential installations. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio and television reception. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause such interference, which can be verified by turning the device off and on, the user is encouraged to eliminate the interference by one or more of the following measures:

- Re-orient or re-locate the receiving antenna of the device experiencing the interference.
  - Increase the distance between this device and the receiver.
  - Connect the device to an AC outlet on a circuit different from the one that supplies power to the receiver.
  - Consult the dealer or an experienced radio/TV technician.
- WARNING!** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

### SmartLabs Limited Warranty

SmartLabs warrants to the original consumer of this product that, for a period of two years from the date of purchase, this product will be free from defects in material and workmanship and will perform in substantial conformity to the description of the product in the owner's manual. This warranty shall not apply to defects or errors caused by misuse or neglect.
