New FCC ID: SBVRM001  
New IC Certification Number: 5373A-RM001  
New Model Number: RM001

Description: 802.11b/g MIMO Mini-PCI card

Hello,

On behalf of my client Sonos Inc. an application for certification of the referenced Sonos device has been filed. There are no changes to the hardware, only the company name, model, and FCC ID have changed. All test reports and supporting technical documentation submitted with the original Alpha Networks limited modular approval filing are representative and applicable to the Sonos product.

Sonos will not sell the module separately. The module will be incorporated into Sonos products, whose design and manufacturing control are maintained by Sonos.

If you have questions or need further information, please contact the undersigned.

Sincerely,

THOMAS N COKENIAS  
Agent for Sonos Inc.
