RE: Class 2 permissive change
Applicant: **Sonos Inc.**
FCC ID: SBVRM002
IC: 5373A-RM002
Model No.: WMP-N06

To whom it may concern,

A class 2 permissive change is being submitted for the referenced radio module product. The change consists of the addition of a new type antenna, the ZPS5. In addition, for products incorporating this antenna, the radio module will operate only in 802.11g spatial multiplexing/cyclic diversity, and in HT20 MIMO mode. The 802.11b and HT40 modes on the original product will be disabled by firmware.

No changes have been made to the original product hardware.

If you have questions or need further information, please contact the undersigned.

Sincerely,

THOMAS N. COKENIAS
EMC Consultant/Agent for Sonos Inc.
