FCC ID: SBVRM002
IC: 5373A-RM002

To whom it may concern,

Request is hereby submitted, on behalf of my client **Sonos Inc.** to withhold from public review indefinitely certain portions of the application for equipment certification for the referenced FCC identifier. The referenced product is an 802.11 radio module, for which a new antenna type is being qualified via the class 2 permissive change procedures in section 2.1043 of FCC's Rules. In particular, the following sections of the application and report are requested to be kept confidential:

Antenna data sheet

Rationale for request for confidentiality:

Sonos has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the confidential portions of this application to competitors would give them competitive advantage in developing similar products.

If you have questions or need further information, please contact the undersigned.

Sincerely,

THOMAS N. COKENIAS
