

Timothy,

I'm uploading the pdf's as I type this. I grabbed the wrong files (.doc) the first time. Mike is working on getting better internal and external pics for you. The one's I'm uploading are the same. I've corrected the grantee code on the 731. The TX freq is 2432 and I've corrected it on the 731 as well. All other documents already reflect this frequency. This should take care of everything for the SBYSSC1 except for the internal and external pics. I'll send those as soon as possible.

Thanks,

Kristi Smith
