DECLARATION THAT DESCRIBES THE DIFFERENCES BETWEEN AKAB-M AND AKAB-W AND EXPLAINS WHY AKAB-W MEASUREMENTS COVERS AKAB-M.

The two equipments are made with the same components, circuits and software the AKAB-M does not have the antimask circuit that is composed by one relay and one amplifier that gain 30. So if testing the AKAB-W, you will automatically test the AKAB-M

De Amicis Vittorio
