Re: Internal Photos of the Sterling-LWB Module

FCC ID: TFB-1003

IC: 5969A-1003

To Whom It May Concern,

LS Research, LLC does not have internal photos of the Sterling-LWB Module, as the modules are manufactured using a SIP (System In Package) process. This process results in the final modules being encapsulated in the packaging material during time of manufacture. Based on this we are unable to provide pictures of the module without the cover.

Sincerely,
