Re: FCC ID: SDB520Q

To Whom It May Concern:

The following application is submitted on behalf of our client, Sensus Metering Systems, Inc., for evaluation of their model 520Q for a class 2 permissive change under FCC Part 90 Subpart I.

The purpose of this application is to increase the frequency range of operation of the model 520Q (FCC ID: SDB520Q) wireless transceiver. The additional frequency band of 464.6625 MHz to 464.7125 MHz is activated via software. There are no hardware or power changes on the product. The model 520Q was evaluated in accordance to WT Docket No. 11-56, DA 11-1316 which waives FCC 47 CFR Part 90.203(j) from the test requirements.

The FCC ID: SDB520Q was found to be in compliance with the test requirements.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large initial 'R'.
